DETAILED ACTION

1. This Office action is in response to the communication received on February 10, 2005.

Claims 1-19 are pending in the application.

Notes

2. Upon reviewing the claims, the examiner notes that there appears to be different set of invention between claims 1-34. See restriction below.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-2, 29-34 drawn to a project management system, classified in class 705, subclass 7.
 - II. Claims 9-12, 14, 17-20, 29-30, drawn to a method for managing a plurality of functions for the real estate, classified in class 705, subclass 38.
 - III. Claims 3-8, 13, 15-16, 21-28, 31-34, drawn to a bidding system for the real estate classified in class 705, subclass 37.

The inventions are distinct, each from the other because of the following reasons:

4. Inventions I, and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as managing, updating and exchanging information for the real estate. See MPEP § 806.05(d).

Art Unit: 3623

5. Inventions I, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention III has separate utility such as a bidding system for bidding on a project between a plurality of participants. See MPEP § 806.05(d).

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and the search required for Groups I, II is not required for Group III, restriction for examination purposes as indicated is proper.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
